Education

BANHA UNIVERSITY	Sep. 2020 – May 2024
Bachelor's Degree in Computer Science	*Qalyubia, Banha*

Relevant Coursework

- Data Structures & Algorithms
- Software Methodology
- Database Management
- Artificial Intelligence
- Operating Systems
- Systems Programming
- Web Development

Internships

Information Technology Institute (ITI)	Nov 2024 – Apr 2025
PHP Full-Stack Development Internship	*Al Minufiyah, Shebin El-Kom*

- Enhanced and deployed full-stack web applications using **PHP, Laravel, MySQL, JavaScript, and Angular**, improving system performance by 30% and boosting user satisfaction.
- Engineered robust frontend and backend solutions focusing on security, scalability, and performance optimization, reducing error rates by 25% and streamlining processes.
- Collaborated with an agile team to deliver 5+ real-world projects on schedule, increasing workflow efficiency and cross-functional communication.

Creativa	Aug 2023 – Sep 2023
Software Testing Diploma – Amit Quality Academy	*CREATIVA Menofia*

- Mastered software engineering fundamentals and **ISTQB Foundation Level** concepts, building a strong quality assurance foundation.
- Executed comprehensive manual testing and designed 50+ test cases—including API testing using Postman—to ensure high-quality releases.
- Led 2 testing projects using SRS documentation and exploratory techniques, significantly improving defect detection rates by 40% and reducing resolution times.
- Conducted rigorous SQL database validations, achieving 99.9% data integrity and reliable system performance.

Projects

Cafeteria Management System | *Html5, Css3, JavaScript, MySQL, PHP*　　　　　　　　　　　　　**Jan 2025**

- Enhanced a web-based cafeteria management system to streamline order processing and inventory tracking.
- Designed an interactive user interface for customers to place orders and view menus.
- Built a secure MySQL database to store user orders, menu items, and transaction history.
- Implemented PHP backend logic to handle order processing, authentication, and data management.
- **GitHub Repository:** Cafeteria

Wazzaf (Job Portal) | *Laravel 11, Bootstrap, MySQL*　　　　　　　　　　　　　　　　　　**Feb 2025**

- Improved a job portal that connects job seekers with employers via a seamless application system.
- Built user authentication, job search, and application submission features to enhance usability.
- **GitHub Repository:** Wazzaf

E-commerce Website | *Html5, Css3, ES6*　　　　　　　　　　　　　　　　　　　　　　　**Dec 2024**

- Designed and expanded a responsive e-commerce platform with an intuitive shopping experience.
- Implemented core features including product listings, shopping cart, and real-time filtering.
- **GitHub Repository:** ESproject

Technical Skills

Languages: PHP, JavaScript, TypeScript, HTML, CSS, SQL
Developer Tools: VS Code, Git, GitHub, phpMyAdmin, Postman, Composer, NPM, Docker
Technologies/Frameworks: Laravel, Angular, MySQL, Bootstrap, jQuery, AJAX, WordPress

Additional Information

Spoken Languages

- Arabic (Native)
- English (Professional Working Proficiency)
